

Design change E2059L

We adapt our E2059L to the classic Hengst design of its forerunner E1059L with plastic cover and bottom. The new E2059L is of course also backwards compatible and can be installed in all Mercedes-Benz Actros MP4 and MP5.

Previous E2059L

New E2059L

Stocks of the old E2059L can of course still be sold for the vehicles listed in the catalogue.
